

MOUNTED FLAP WHEELS

PREMIUM*** MOUNTED FLAP WHEELS FOR STEEL, STAINLESS STEEL AND NONFERROUS METALS

+ **High flexibility**

Greater precision is made possible as the flaps adjust flexibly to the contours of each workpiece.

+ **Universal use**

TYROLIT mounted flap wheels can be used on both pneumatic and electric machines for different materials.

+ **Less work required**

The grinding of small and difficult-to-reach areas, for example in container construction and apparatus engineering, is not a problem for TYROLIT mounted flap wheels.

MOUNTED FLAP WHEELS

MOUNTED FLAP WHEELS FOR STRAIGHT GRINDERS

Straight grinders are used when you need to work precisely in hard-to-reach locations. Especially when used in conjunction with TYROLIT spindle-mounted fleece flap wheels and mounted flap wheels, they are a flexible tool for producing optimum workpiece contours.

The fan-shaped, abrasive grain flaps of the mounted flap wheels allow precise work on all surfaces. They can be used not only on electrical but also on pneumatic straight grinders. The TYROLIT assortment also includes a large number of spin-

dle-mounted fleece flap wheels in different shapes and designs. They are highly adaptable and ensure that no changes occur to the surface integrity. Spindle-mounted fleece flap wheels are available with or without embedded abrasive.

Dimensions

50 x 30 - 6 x 40

BASIC★ MOUNTED FLAP WHEELS

For steel, stainless steel and nonferrous metals

The BASIC★ mounted flap wheels adapt well to every workpiece contour thanks to their flexibility. The radially arranged flaps of the mounted flap wheels can be used on various materials and permit precise work for different applications, such as matting, pre-polishing and the cleaning of surfaces.

The highly flexible flaps also make light work of machining hard-to-reach areas.
